DJANN VAN ALMKERK

WEB DESIGNER IN TRAINING

PORTFOLIO

During my time at Het Element in Amersfoort, I studied construction. During that program, I had the opportunity to choose an internship. I chose to broaden my horizon and entered the media world. That's how I ended up at 111 Zorg voor Jezelf, where I first encountered WordPress. This experience helped me decide to pursue a design education at the Grafisch Lyceum.

Since then, I feel like I've found the right path. I truly enjoy working on projects and stay motivated to keep developing myself.

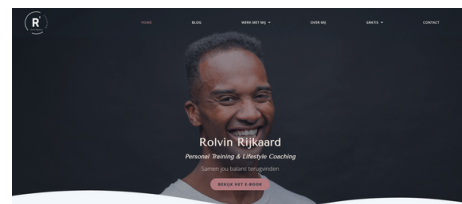

WEBSITES I CREATED

FREOGINGERBEER.COM

I created the webshop for Freo Gingerbeer. This is a one-man business and the website is currently live.

For Rovin Rijkaard, I maintain and optimize the website. This site is also live.

ROLVINRIJKAARDPT.NL

GROENEGEVELS.NL

For a startup, I designed their website. The site will go live soon.

SOFTWARE

- Wordpress
- Adobe Illustrator
- Adobe Photoshop
- Adobe Premiere pro
- Adobe After Effects
- Figma
